

General information:
COVID-19

WHAT IS COVID-19?

A disease caused by the most recently discovered strain of coronavirus.

WHAT ARE THE SYMPTOMS?

Fever

Cough

Difficulty breathing

HOW DOES COVID-19 SPREAD?

Through **respiratory droplets**.
Symptoms start around 2 to 14 days after exposure.

PREVENTIVE MEASURES

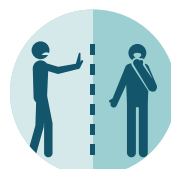

Wash your hands regularly with soap and water.

Cover your mouth and nose with your elbow or a tissue when you cough or sneeze, then wash your hands.

Dispose of the used tissue immediately.

If possible, avoid close contact and maintain a distance of at least 1.5 metres between yourself and others.

Face masks are mandatory for all those who are more than 10 years old on the public road, in open or closed public spaces, and during outdoor sports activities. If you can't keep a distance of 4 metres, you have to wear a face mask.

WHAT SHOULD I DO IF I HAVE COVID-19 SYMPTOMS?

Remain at your place of temporary residence.

Take all possible hygiene measures.

Keep at least 1.5 metres away from other people, even from your family members.

If you become seriously ill (shortness of breath, fever, etc.), call the 116 emergency number for help.
