The legend, not really a legend, of the **tamarros**

Did you ever hear about **tamarros**?

Some say they don't exist and that they are just an invention to make jokes on gullible people, but of course they exist!

There are, at the very least, **7**.

What happens is that the tamarros move very quickly and silently and, even though they are bigger than any dog you could have at home, they are almost impossible to see.

Besides, the tamarros live in a fantastic world which is parallel to ours and they are usually there. They only visit us when we need them, since they are the **protectors of the forests and nature** in Andorra.

Each one of the 7 tamarros is in charge of **protecting one of our parishes**: Canillo, Encamp, Ordino, La Massana, Andorra la Vella, Sant Julià de Lòria and Escaldes-Engordany. To get to our world, each one of them has a **portal hidden** in one of the forests of the parish they take care of.

And from whom do they protect nature, all these tamarros?
you may ask yourselves.

Well, no more no less than the wicked **Filth**, a truly evil troll that wants to destroy the mountains, lakes, forests and all the fauna and flora of the country! We don't know why, but Filth spends every day, Sundays included, trying for everything to be dirty and ruined.

One day, to show you an example of how spiteful this troll is, Filth started spreading cans, plastics and papers throughout all the meadows of the country. The cows that were peacefully grazing were not understanding a thing of what was going on, while Filth was running from one place to the other throwing garbage like she was crazy. All seven tamarros had to spend more than two days working without rest so the meadows would be clean again and no animal would choke on a piece of plastic.

Luckily, we have the tamarros!

Mind you, every now and then, **they are the ones that need our help**. Because, for the portals they use to reach Andorra to work, kids have to leave a little stone in them. The shinier the stone is, the more time they will be able to stay in our world. If there is no stone, the portals can not be open and the tamarros can't come to give us a hand.

Could you help us find them and place the little stone that will make them work?

We will give you a clue:
**each portal has the shape of
the tamarro it can transport!**

Finding all the tamarros has a prize!

Next to each portal you will find a magic marker. Use it to mark every tamarro on this page and, when you have all 7, come to show us. Enko, Andy, Caldes, Lau, Massa, Dino and Nilo left us a present for all the kids that go visit them!

When you have found all the tamarros, come pick your present at any Tourist Office of Andorra.
